

Overton Methodist Church

What are we aiming at?

What are we aiming at?

- Implies that we have a fixed target
- The only certainty is that there is no certainty
- Create a movement not a monument

Characteristics of a movement

- It is highly adaptive to change
- It is responsive to need
- It has an inner dynamism

What a movement looks like

- Focus on people not buildings
- Looks for opportunities to serve
- Is highly relevant as not reliant on a complicated structure
- Very low gradient hierarchy – every person is a player
- Intuitive – it can feel unpredictable because it is responsive to need
